

Celebration of Excellence

Employee of the Month

FLM – Johnny Wallace

Years in Education: 14 years

My wife, Theresa, is my greatest supporter but I have many supporters on campus.

I worked in Southeast Texas in the refineries as an industrial painter and supervisor for 32 years.

I came to Center ISD in September of 2002. I hired in as the district painter. I was assigned to F.L. Moffett around 2006. I direct traffic in the crosswalk in the mornings and afternoons. I do general maintenance throughout the day and help in any way I can.

I grew up in Groves, Texas, but my parents had a lake house in Huxley where we spent most every weekend. My dream was to one day live in Huxley. We moved to Huxley in 1999 but I continued to work in Southeast Texas for 2 years. I listened to the radio driving home every weekend for available jobs. I was so excited when I heard about the district painter job. I applied and was hired immediately.

I love coming to work every day. The students, the parents and co-workers make my job the best job I have ever had!

From Around Campus:

Mr Johnny is our lifesaver on the F.L. Moffett Campus. He does everything from A-Z and he helps everyone when sometimes it is not under his job description. He is always ready and willing. He goes far and beyond and knows all the students and they all love him too.

He is our maintenance man but also helps in so many other areas. He does the crosswalk in the mornings, helps Mr. R with busses in the afternoons, covers the office, and helps with our birthday luncheons by keeping up with supplies. Plus, he helps put up the food! He makes the best coffee, which keeps us going in the mornings! He is friendly to all. The students adore him. He also gives of his off time when needed. It is evident he loves his job.
