

# *Celebration of Excellence*

## *Employee of the Month*

### **FLM – Jennifer Wolf**

**College attended:** University of Phoenix  
BS in Human Services and Management

**Years in education:** 8 years

**Who is your greatest supporter/inspiration?**

My greatest support comes from my family. No matter what I have decided to do in life, they have always encouraged me to be my best. I have been blessed with the best. My inspiration is my mom. She is my best friend, the most patient, selfless, purest of hearts I have ever known.

**Why did you choose to become an educator?**

I have a passion for children. I think every child deserves a chance to feel special and smart. Every child has a unique capability within them and they just need someone to help them discover it. I want to be a part of the greater good. I feel I have a calling to teach.

**What makes a good teacher?**

A good teacher is patient and continues to find new ways to help that one child who just hasn't blossomed yet. A good teacher never gives up on a child!

**A life-long career means constant growth. What is one area in which you wish to improve?**

I would like to expand my horizons and continue my education to be a counselor. I wish to improve my knowledge in science also. I love the challenge of presenting science on a Kindergarten level.

**What do you love about CISD?**

I love the energy, silliness, loving hearts, and caring individuals here at Moffett. These are babies and they need us to be relaxed, fun, and loving.

**From around campus:**

I chose Jennifer because she is a wonderful person. She teaches Science at Moffett. She is excellent with our students on this campus. She goes far and beyond to help each student and to make sure they are understanding the concepts of Science in all of the activities that she teaches in her Science classes. She is always happy and very outgoing and always willing to help in every way possible.

Jenni is our Kindergarten Science teacher. She works very hard making Science fun for the kids. Her positive energy is conveyed to both students and staff daily. She will help anyone in any way she can. We are blessed to have her on our campus.
