--------------	-------------------------------------	--

To our communities,

The East Texas Neuro Support Group 501c3 was established in July 1998 to serve persons with a neurological disability, as well as their families and friends. Some examples include, brain and spinal injuries, stroke, multiple sclerosis, etc.

ETNSG meetings are held monthly for educational, social and recreational purposes. We personally extend a welcome to you or anyone you know with a neurological disability, family and friends to join us monthly!

The fundraiser and donations received from the benefit will allow us to purchase medical-adaptive equipment products for people with disabilities, which will enable them to improve their quality of life.

Thank you for your contribution to this beneficial community organization.
